Hi!

I'm a Creative Technologist and Developer with 20+ years of experience building interactive digital experiences, campaign websites, and motion-driven content for global brands including L'Oréal (Kiehl's), Elizabeth Arden, Armani Exchange, and Hearst Communications.

I combine strong visual design with front-end development to prototype and deliver engaging digital experiences, while continuously exploring creative coding workflows that integrate motion, UI/UX, and front-end development.

Portfolio highlights include motion-driven web experiences, interactive campaign concepts and front-end creative development.

CORE SKILLS & DISCIPLINES

Creative Technology

UI/UX
Interactive Digital Experiences
Code Animation
Responsive Web Design
Rapid Prototyping
360 Digital Campaigns

PROFESSIONAL EXPERIENCE

Digital Designer
Kiehl's (L'Oréal USA)
2021 – 2025

- Designed digital campaign assets and landing page content for the global Kiehl's e-commerce platform
- Implemented campaign layouts and visual updates within front-end templates using HTML and CSS
- Collaborated with marketing and development teams to support global product launches and seasonal campaigns
- Produced motion graphics and lightweight web animations for select promotions, expanding the brand's use of animated digital content
- Maintained visual consistency and responsive behavior across desktop and mobile web experiences

Freelance Digital Designer
Elizabeth Arden
2012 – 2017

- Designed and built mobile websites, email campaigns and digital marketing experiences
- Produced motion graphics, animations and interactive brand content
- Developed microsites and digital experiences using HTML, CSS and JavaScript

Freelance Digital Designer / Creative Technologist
Armani Exchange
2010 – 2012

- Designed and developed responsive and mobile-friendly microsites supporting fashion e-commerce initiatives
- Created digital campaign assets including high-fidelity banners and emails, ensuring maximum visual impact and technical performance
- Distinction: AOL/KBS Project Devil Competition Winner (in conjunction with Media Kitchen)

Designer / Creative Technologist

Hearst Digital Media

2008 – 2009

- Designed promotional players and evites for premier publications including *Seventeen*, *Cosmopolitan* and *Harper's Bazaar*
- Produced media supporting editorial marketing and in-house digital promotions

Art Director

MRM (McCann Worldgroup)

2005 – 2006

- Developed digital campaign concepts and visual executions for tier-one accounts including GM, Intel, and Wendy's
- Produced storyboards and visual concepts for high-stakes client presentations, collaborating with creative leadership to secure project wins

INDEPENDENT PROJECTS

Capture the Movement

- Designed brand identity and built a nonprofit showcase website using Wix
- Extended functionality with Velo (Wix's scripting environment) to customize layout behavior and content presentation

Ichiban Yofuku

- Concept fashion e-commerce site exploring brand storytelling and product presentation
- Built using Wix and extended with Velo scripting to customize page structure and UI/UX behavior

MiMi

- Experimental brand site exploring visual identity, layout systems and interactive content modules using Wix and Velo scripting

Kawaii SquirrelBit – WebGL Maze Experiment

- Developed a browser-based WebGL prototype exploring real-time navigation and spatial interaction
- Technical Stack: Autodesk Maya (3D Modeling), Unity and C# (cross-platform game engine)
- Live Demo: WebGL Maze Prototype – shigimcp.com/squirrelbit
